Children \$4.00

Groundbreaking Film Directors Series

Simply known as the director whose work makes other directors cry, Michel Gondry sets the standard in everything he does. His groundbreaking videos for artists including the White Stripes, Bjork, The Chemical Brothers and Daft Punk, have won him every music video award available, and he is in the Guinness Book of World Records as the director of the commercial that has won the most prizes in the world. Gondry combines his concepts with a philosophy that one finds beauty in ordinary people to complete visual images that never look as if they'd just been placed on top of an artist's work. He has also completed four feature films, *Human Nature*, the Oscar-winning *Eternal Sunshine of the Spotless Mind*, *The Science of Sleep*, and the recently completed *Be Kind Rewind*.
